

# Enrolling students into course in Moodle

Follow the steps listed below to be able to enroll students into your Moodle course:

1. Login to Moodle and open your course

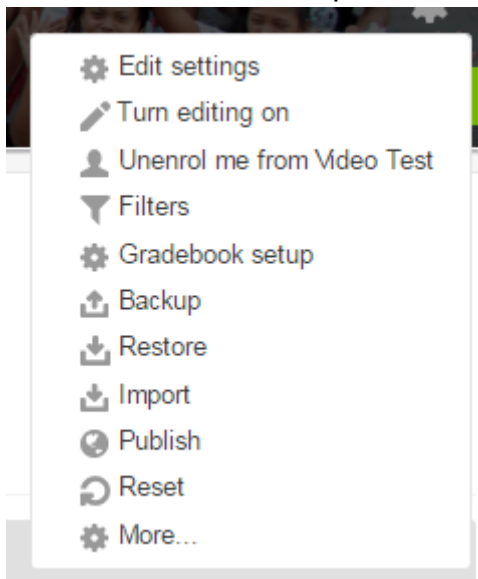

2. Click on  on the top right hand corner of the banner:

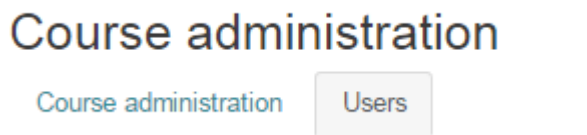

3. Click on  drop down arrow on the course settings option on the top right corner of the banner.

4. Select More from the dropdown list:

5. Click Users on the course administration block:

6. Select Enrolled users from the list of users options:

Users

Enrolled users  
Groups  
Other users

7. Once clicked on enrolled users you will be able to see all users who are enrolled into the course and also this is where you should be able to enroll new students by clicking

Enrol users

on the button on the right hand corner of the screen.

8. Once clicked on enroll users you will have the following option box:

### Enrol users

Assign roles

Enrolment options

26958 users found

 administrator	<input type="button" value="Enrol"/>
 Jreeta jreeta	<input type="button" value="Enrol"/>
 Mikes s2013117048	<input type="button" value="Enrol"/>
 misproject misproject	<input type="button" value="Enrol"/>
